

QA LUBRICANTS INC.

QA LUBRICANTS INC.

QA Lubricants Inc. is a specialty manufacturer and supplier of oils, coolants and greases for the industrial community. QA Lubricants Inc. was formed in 2008 and is based on decades of research and experience. Our goal is to provide high quality products to industry with a high level of service, knowledge and value.

State of the art products has been a focus since the company's inception. Strong relationships have been formed with premier United States manufacturing companies. Their leading products along with our own private brands give us solutions on almost every scale.

In an effort to satisfy the oil and grease requirements listed in the machine manuals we also carry most of the major brands. Our pricing structure on these items is very competitive.

A high level of customer service is paramount at QA Lubricants Inc. All of the people associated with our company are true partners in industry. Vendors, Customers and Associates working together toward a common goal.

QA Lubricants Inc. utilizes the latest in technology to help streamline internal systems. This advanced infrastructure allows us to do things efficiently, fast and economical. These systems help keep our prices competitive while maintaining a high level of service.

QA Lubricants Inc. currently has locations in Southern and Northern California. We have our own fleet of trucks to ensure prompt delivery to companies in California. In addition we can also arrange special freight terms when needed for remote areas. Our typical service includes picking up the empty drums to help keep your facility clean.

We understand the demands of many industries. Major brands along with our private brand of products give us a wide variety of solutions to fulfill the needs of our customers. Our metalworking line covers a very broad range of applications. In addition to metalworking, we also cater to aerospace, semiconductor, mines, mills, medical, and food and beverage industries.

Contact us today to setup a time to look at your operation. We will do our best to give you an honest assessment of your coolant and lubrication needs.

SOLUTIONS FOR INDUSTRY

Aerospace (Commercial & Defense)

QA Lubricants Inc. has many products for the aerospace industry which includes Commercial, Military, Nuclear, Satellite and Space. We work closely with manufacturing companies to ensure compliance with each major aerospace company and the strict requirements of the defense industry. Our comprehensive aerospace line includes a full range of Military Specification products.

Semiconductor

The semiconductor industry is rapidly growing and evolving. Fluid demands can be precise while limiting the chemicals and additives to ensure end product performance. This can include many different materials up to and including aluminum and ceramics. At QA we have many options to meet the semiconductor and pc board industry requirements. Our selection ensures performance, availability and cost projections.

Heavy Industrial

Our oil and grease line includes synthetic, partial synthetic and mineral oil based products. They have been formulated to handle extreme loads under harsh conditions. Our heavy duty products meet and exceed the manufacturers and industry standards. We supply mining, heavy duty commercial and primary industries such as foundries and steel mills. We also offer a wide range of products for air and natural gas compression.

Medical & Dental

This is a unique and fast growing industry in manufacturing. It is a delicate process to provide products that perform while meeting the stringent requirements for each medical company. We understand this process and work hard to find products that meet both areas.

Metalworking Industries

We have products for virtually all types of metalworking applications. These include machining coolants for cnc machine tools and straight oils for swiss screw machines. They also include drawing, stamping, grinding, honing, sawing, punching, broaching, gear hobbing, cold heading and much more.

Specialty Industries

At QA Lubricants Inc. we supply products for many different industries. Some of these industries include Racing (Auto, Boat & Motor Cycle), General Automotive, Marine, Personal Recreation and much more. Our comprehensive line ranges from grease to engine oil to cutting oils and coolants and everything in between.

Food & Beverage

The lubrication requirements for this industry can be very strict and require specific certifications. Our line of products meets the latest food grade standards. We have a wide variety of specialized oil and grease products to handle most applications. Let us conduct a complete plant survey to help with each application at your facility.

PRODUCT LINE

Metalworking

We offer solutions for Grinding, Milling, Turning, Drilling, Tapping, Threading, Screw Machines and much more.

► Straight Oils

- ▲ Several Major Brands
- ▲ Light, Medium And Heavy Duty
- ▲ Wide Range Of Viscosity Grades
- ▲ Oils For All Types Of Machining

► Water Diluted Fluids

- ▲ Wide Selection
- ▲ Products For Aerospace Machining
- ▲ Soluble, Semi & Synthetic Versions
- ▲ Economical, Mid And Premium Grades

► Way Lubricants

- ▲ Several Major Brands
- ▲ Cincinnati Machine P-47, P-50 & P-53 Specifications
- ▲ Types That Separate From Water Miscible Coolants

► Anti-Wear Hydraulic Oil

We offer a large variety including:

- ▲ Fire Resistant
- ▲ High VI
- ▲ Mil Spec
- ▲ Food Grade
- ▲ Biodegradable
- ▲ Synthetic
- ▲ Partial Synthetic
- ▲ Anti-Wear

► R&O Turbine Oil

- ▲ Wide Range Of Viscosity Grades
- ▲ Several Major Brands
- ▲ Mineral, Partial & Synthetic

► Extreme Pressure Gear Oils

- ▲ Mineral, Partial & Synthetic
- ▲ Heavy Duty Single & Multi-Weight
- ▲ PAO, PAG, POE And Food Grade

► Machine Oils

- ▲ Several Grades & Brands
- ▲ Wide Range Of Viscosity Grades
- ▲ Several Different Base Oils

► Grease

We offer many different types including:

- ▲ Lithium
- ▲ Calcium Sulphonate
- ▲ PFPE
- ▲ Lithium Complex
- ▲ Clay
- ▲ And More
- ▲ NLGI Grades 000, 00, 0, 1, 2, 3 And Fractions Thereof
- ▲ Available With Many Base Oil Types & Viscosities

► Specialty Items

- ▲ Air Tool Oil
- ▲ EDM Fluids
- ▲ Blower Lubricants
- ▲ Barrier Fluids
- ▲ Descalers
- ▲ Vacuum Pump Oils
- ▲ Heat Transfer Fluids
- ▲ Drawing Compound
- ▲ Chain Lubricants
- ▲ Much More

► Compressor Oils

Fluid for virtually every compressor type including:

- ▲ Rotary Screw
- ▲ Centrifugal
- ▲ Rotary Vane
- ▲ Reciprocating

Fluids used in most compressor applications

- ▲ Air
- ▲ Process Gas
- ▲ Natural Gas
- ▲ Refrigeration

Available in the following base oils

- ▲ PAO
- ▲ Diesters
- ▲ Partial Synthetic
- ▲ PAG
- ▲ Silicone
- ▲ POE
- ▲ Mineral Oil
- ▲ More

► Fleet Oils

Complete line of heavy duty industrial fleet oils

- ▲ Mineral, Partial & Synthetic
- ▲ Single & Multi-Grade
- ▲ Universal Tractor Fluid
- ▲ Gear/Differential Oil
- ▲ Anti-Freeze/Coolants
- ▲ Transmission Fluid
- ▲ Engine / Motor Oil
- ▲ More

► Cleaners

Full line of acid, alkaline & emulsion cleaners

Solutions For:

- ▲ Parts Washers
- ▲ Vibratory Finishing
- ▲ Soak Tank
- ▲ Floor Scrubbers
- ▲ Maintenance
- ▲ Machine Tool Cleaners

► Food Grade Items

- ▲ USDA H1/H2/USP & NSF® Grade Lubricants
- ▲ Kosher Approved, Halal certified, and CFIA accepted products available

► Mil-Spec Products

Please call us and give us the Military Specification. We will help determine which products meet the requirement along with pricing and availability.

► Corrosion Inhibitors

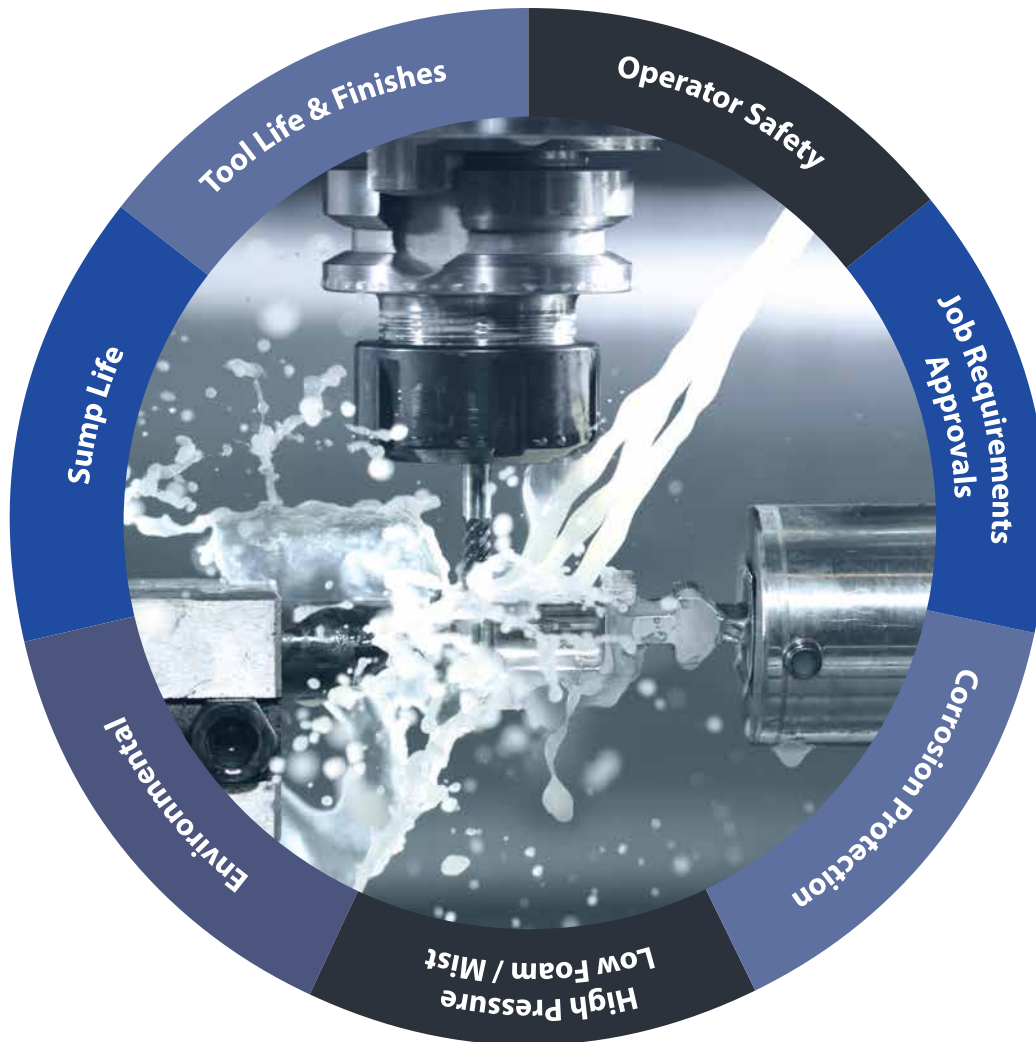

- ▲ Petroleum And Aqueous Based Solutions
- ▲ Short, Mid & Long Term Protection
- ▲ Indoor & Outdoor
- ▲ SCAQMD VOC Compliant

METALWORKING FLUID SPECIALISTS

Machine Tool Machining Fluids

At QA Lubricants Inc. our focus is on metalworking oils and coolants. Choices range between soluble, semi-synthetic, synthetic and straight oils. We have more than three decades experience in helping companies navigate through the process of choosing the right product.

This process can be extremely complex when you consider the machine tools, materials, operator safety, performance, price, approvals, restrictions and environmental concerns. We are committed to understanding each company's processes to help minimize risk and maximize value.

Our selection ensures we can stay objective and meet the needs of each company we supply. Our strategic acquisitions and development of relationships with the top metalworking manufacturers in the country provide our customers real world experience in working with a vast array of products. Let us put our knowledge to work for you to help make the best recommendation of coolant or cutting oil for your operation.
